

**GEORGE H. SCOUALL'S
NEW ONE-STOP SERVICE
STATION NOW IN OPERA-
TION—ONE OF THE MOST
UP-TO-DATE BUSINESSES
OF ITS KIND IN SOUTH-
ERN ALBERTA**

George H. Scouall's new Texaco one-stop service station is now completed and operating. The main building is 60x60 ft. set squarely facing 24th St. with service station annex facing the corner of 24th St. and Third Avenue, thus affording a cross corner covered driveway with easy access for cars to the three gas pumps.

The structure is in Bungalow style, finished outside in white stucco with green trimmings and has altogether an extremely handsome appearance. The interior contains commodious offices, show rooms and comfortable ladies' waiting room. Also large drive-in car service room and service annex used for auto accessories, oils, greases, etc.

The interior is brilliantly lighted throughout showing to advantage the pure white inside finish enhanced by a pro-

fusion of beautiful potted flowers.

The building is a credit to the Town of Macleod and speaks volumes for the efficiency of C. W. Stevens, its builder and designer.

Mr. Scouall caters from his handsome new headquarters to the auto driving public with Buick and Chevrolet cars and auto accessories. Also Texaco gasoline (including Texaco Ethyl) and oils and greases and general car service, all efficiently handled by a capable and obliging staff.

**SANTO DOMINGO'S HURRI-
CANE DEATH TOLL 1500**

Santo Domingo, Sept. 6.—Relief agencies speeding to the assistance of this stricken city today encountered conditions of horror which have been accentuated rather than mitigated since the storm Wednesday.

Between 1,500 and 2,000 persons, it is estimated now, died in the hurricane which swept Santo Domingo, cradle of the white race in the new world, Wednesday. More than 5,000 were injured, 30,000 are homeless and of 10,000 buildings but 400 are left standing. Property damage will pass \$20,000,000.

Washington, D. C., Sept. 5.—(A. P.) Captain Antonio Silva, Red Cross official, today reported 1,000 persons killed, 2,500 persons injured, 4,700 homes destroyed, 5,200 persons damaged, and 29,000 persons homeless as the result of the Caribbean hurricane in Santo Domingo city.

All Crops Destroyed

Pointe Pitre, Guadeloupe, Sept. 6.—(A. P.)—An official report received today from the Leeward island of Dominica related that the hurricane of Monday destroyed all crops on the island, sank all vessels in the harbor and killed two persons.

Ancient Cathedral Safe
Among the few buildings left standing in the city by the wind, which it is said attained a velocity of 180 miles an hour, were the 400-year-old cathedral and other old Spanish buildings which were not damaged at all. The reported tomb of Columbus inside the cathedral also was not touched.

Reports from the northern section of the republic were that damage there was not so heavy as in Santo Domingo. The cities of Santiago de los Caballeros, La Vega and Puerto Plata were not damaged at all. Village Duarte, a small village housing 1,500 of the poorer classes in native huts and shacks, literally was blown off the map.

**WHEAT HITS LOWEST
POINT IN PAST SIXTEEN
YEARS**

Winnipeg, Sept. 4.—(By the Canadian Press) —Cheaper October wheat than the bargain board on the Winnipeg exchange has been loaded with for 16 years was laid out for sale today as values in all futures took another step downward. October delivery wheat declined to 87½ cents a bushel. Not since 1914, when this option sold for 80 cents, has the stock been quoted so low.

Exceptionally heavy deliveries of the new crop to country elevators and consequent hedging by elevator interests carried the market down.

**APPLICATION FOR LEASE
OF ROAD ALLOWANCE**

Notice is hereby given that Thomas G. Bratton of Spring Point, Alberta, has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance, viz., between Sections Five (5) and Six (6), Township Ten (10), Range Two (2), West of the Fifth (5th) Meridian.

Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

Dated at Spring Point, Alberta, August 20th, 1930.

Thomas G. Bratton, (Applicant).

**SHARP CLASH WITH RE-
BELS OF NORTH INDIA—
BRITISH FORCES LOSE
TEN AND REBEL LOSSES
SAID TO BE HEAVY**

Simla, India, Sept. 6.—(A. P.)—Severe fighting between British troops and raiding Afghan tribesmen on the north-west frontier broke out Thursday night and Friday morning. An official announcement today said that seven native Indian recruits and three militiamen had been killed at Khar-lachi post.

Hostile tribesmen from Kurram attacked the post, which is ten miles southwest of Peshawar. They also skirmished with picket posts in the "Chishna" (friendly) area along the Kurram river.

The defenders beat off the attack with shrapnel and rifle fire. Enemy casualties were believed to be considerable but could not be ascertained. The British lost seven Chighas and three of the Kurram wounded.

Shirala, India, Sept. 5.—(A. P.)—Disorders in the Satara district, brewing for several days, today were climaxed in a battle between police and villagers at Silashi in which two natives were killed.

Six policemen were badly wounded when the natives charged with scythes and

heavy stones. Many hundreds took part in the encounter and the casualties were heavy. The police used their firearms freely after sticks proved ineffective. Scores of arrests were made including several wealthy merchants.

**WAR VETERANS ALLOW-
ANCE ACT**

Art Wakelyn, the Provincial Secretary of the Canadian Legion, B. E. S. L., in Alberta, through the courtesy of the Macleod Times announces the benefits of the War Veterans' Allowance Act which becomes effective on the 1st of Sept., 1930.

Subject to the provisions of the above Act, allowances are payable to veterans of the Great War (1914-21) who saw service in an actual theatre of war. Men who saw service in Canada or England only are not eligible unless they are pensioned or have received a final payment for a disability of 5% or more in lieu thereof.

The applicant must have attained the age of sixty years or be permanently unemployed by reason of physical and/or mental disability. The Act contains reservations as to income, restricts the amount payable to \$20.00 per month to a married man, and requires one year's residence in Canada immediately prior to application.

**The ABC of Vitamins
And Where to Find Them**

BY EDWINA NOLAN

Director of Home Service, General Electric Refrigeration Department

CHILDREN—and adults, for that matter—need food containing the various vitamins, if they are to enjoy health and vigor and even dispositions.

Take vitamin A away from a child and he is underfed. Lacking vitamin B, growth is stunted. Without vitamin C, scurvy may develop. And vitamin D is essential to assimilation of food.

In what foods are these vitamins found? Let the United States Department of Agriculture answer: Vitamin A—Some common sources of vitamin A are avocados, bananas, string beans, butter, carrots, cheese, cod-liver oil, dried cowpeas, cream, dandelions and other greens, eggs, lentils, lettuce, liver, milk, peas, sweet potatoes, spinach, squash and tomatoes.

Vitamin B—Common sources are asparagus, dried and fresh beans, brains, cabbage, carrots, cauliflower, celery, egg yolk, fish roe, grapefruit, kidney, lemons,

lentils, lettuce, liver, milk, nuts, okra, onions, oranges, parsley, parsnips, peas, potatoes, pineapples, rutabagas, spinach and other greens, tomatoes and whole grain products.

Vitamin C—Found in apples, bananas, cabbage, young carrots, cauliflower, grapefruit, guavas, lemons, onions, oranges, peaches, pears, pineapples, potatoes, raspberries, rutabagas, spinach, sprouted legumes, string beans and tomatoes.

As to vitamin D, this is supplied through open-air sunshine, from your physician's ultra-violet ray machine, or from doses of good old-fashioned cod-liver oil.

All the vitamin alphabet belongs in the family diet. Say it with milk and fruits and vegetables—with wide variety—and the chances are that you will have included most of the essential vitamins. Perishables, properly refrigerated and wholesome, are necessary.

The person with a charming disposition usually is properly vitaminized. By the same token, he with a grouchy, a snappy or a snarl may be lacking a vitamin.

in Alberta the men should apply to the Department of Pensions and National Health, either at Calgary or Edmonton, for a preliminary application form.

Any prospective applicant in doubt as to the operation of the Act can receive full information from any chartered Branch of the Legion in Alberta.

**EDISON PAYS TRIBUTE TO
MILK**

"The Almighty knew His business when He apportioned milk. He is the best chemist we have."

The above statement was made by Thomas A. Edison and published in the Philadelphia Public Ledger, writes Philadelphia Inter-State Dairy Council. The genius of light attributes his splendid health and vigour at the age of eighty-three to milk.

"I'm an experimenter," he said, "and I have tried many diets; but I've always come back to milk. It has done more for my health than anything else—more even than giving up tobacco. Milk is just as fine a food for men as it is for calves."

MARKETING GEESSE

The time to prepare geese for market is when the weather turns cold in the fall, state poultry experts of the Dominion Department of Agriculture.

They should then be taken off pasture and those selected for market should be placed in small penned enclosures, provided with plenty of water and grit and kept clean. They should be fed heavily on whole corn, the best medium for the fattening of geese, and about two weeks' heavy feeding should fit them for market.

Twenty-four hours before killing geese should be starved, but given plenty of water. Care should be used in plucking, the dry or steam methods being recommended, for the reason that the feathers are particularly valuable, bringing as much as 60 cents per pound. The dressed bird should be rubbed over with a damp cloth and set aside to cool. The twelve-bird box makes a desirable market package.

South Macleod News

Miss Kirschner of Portland, Oregon, is the guest of Mrs. A. E. Skelding, past couple of weeks.

Miss Ruth Johnson is attending High School at Stavelay.

Miss Kirschner and Mrs. A. E. Skelding and sons spent Sunday with Pincher Creek friends.

Mr. E. Whipple has been in the hospital the past week with blood poisoning. We hope to see him home soon.

The lightning struck the Hydro line at Mr. Moloney's corner and the burnt wire started a prairie fire which might have resulted in a serious fire but it was soon extinguished by willing workers.

Mrs. C. Johnson picked ripe cherries and strawberries this past week in her garden which is quite unusual for this time of the year. A plum tree is also laden with fine fruit which show if properly attended at kinds of fruit can be grown on the prairie.

Mrs. Weir.

**CLEVER CAPTURE OF MAC-
LEOD HOLD-UP ARTISTS
BY PROVINCIAL POLICE
— GUNMEN CAPTURED
AT BLAIRMORE**

F. H. Chanter of Nelson, B. C., was held up and robbed at the tourist camp here Friday night, and by quick action on the part of the police the hold-up men are now in the hands of the provincial police.

Mr. Chanter was held up and robbed of \$72 by two men carrying guns. The police were notified immediately after the robbery and a sharp lookout was maintained for the pair. They were located and arrested this morning by Sergt. Jones of the provincial police at Blairmore. The men were riding a freight train.

The money and the guns were found on the men.

Pair Admit Guilt
From information gathered at the Alberta Provincial Police headquarters here, it is learned that the hold-up occurred between the hours of three and four o'clock at the tourist camp. Mr. and Mrs. F. H. Chanter, of Nelson, B. C., were the victims, losing approximately \$75 at the point of a gun.

Corporal Vise and Chief Constable Pringle were at once notified and a search of the railway yards was executed. A westbound freight had just pulled out so the Blairmore detachment was phoned, several officers in charge of Sergt. Jones searching the freight on its arrival.

Two men, Christam Crossom and Norman Jordan, of no fixed abode, were discovered hiding in a box car and on being taken out, admitted guilt. The money was found on their persons, the men being brought back to Macleod.

The capture of the highway men is regarded as one of the cleverest pieces of work accomplished by the A. P. P. for some time and the officers who aided are deserving of the highest praise. The tourists are remaining at Macleod for the time being until the bandits are charged with robbery with violence.

**FEDERAL ASSISTANCE IN
BUYING FEEDERS—DOMI-
NION LIVESTOCK
BRANCH TO PAY
EXPENSES OF BUYERS ONE-
WAY TO WESTERN FEED-
ER SHOWS**

The Hon. Robert Weir, Federal Minister of Agriculture, has authorized a Feeder Purchase Policy by which the purchase of feeder cattle and lambs at the Western Feeder Shows and from the open range will be facilitated. Briefly the scheme is that the bona fide purchaser of one or more carloads of feeder steers, calves or lambs to be fed on the farm or in farms represented by him will have his expenses from the feeding point to the western feeder show or purchasing point paid one way, including railway fare, berth and living expenses.

The policy operative for a period of five months dates from August 1st of this year and applies to shipments of feeder steers or lambs purchased at the Moose Jaw or Calgary Feeder Shows; purchased direct from bona fide ranchers in Saskatchewan or Alberta; or purchased at any of the Western stockyards.

The scheme has a threefold objective: To provide better finished young cattle for the market, to enable the farmers with substantial supplies of good feed to use it to advantage, and to assist in the marketing of coarse grains which will be available at fairly attractive prices.

There are plenty of young cattle available for feeding in the western ranges. There is a good supply of roughage available in many sections of the Dominion. And coarse grains, so necessary to the proper finishing of beef, are cheaper than they have been for a long time.

By combining the areas which can feed cattle with the areas which can produce them, the Federal Department hopes in a measure to alleviate the present somewhat unsatisfactory condition in the cattle market and at the same time to encourage the development of properly finished young cattle for which there is a growing demand in both the domestic and export market.

**COMING EVENTS
FORESHADOWED**

The Local Council of Women will meet in the Parish Hall, Thursday, Sept. 18th at 4 p. m. There will be matters of importance to consider by the members. Mrs. Edwards will introduce them. All members of the six affiliated Societies are members of The Local Council, and are invited to be present.

The Macleod Women's Institute will hold their regular monthly meeting in the Parish Hall on Tuesday, Sept. 16th, 1930, at 8 p. m.

**PROGRAMME MACLEOD
WOMEN'S INSTITUTE,
TUESDAY, SEPTEMBER
16th, 1930**

Meeting opens by singing. Roll call. Piano Solo—Gwen Hilliard. Song—Mina Ringland and Lucille West. Topic—Immigration. Violin Solo—Mrs. Vise. Address—Mrs. J. W. McDonald. Solo—Mrs. Jones. Violin Solo—Mrs. Vise. Convener—Mrs. Adams. Committee—Mrs. Ringland.

PREFER CANADIAN HAY

The increase in popularity of Canadian graded hay in the Overseas market, coupled with an acute shortage in the United States, is the basis for the forecast by the Seed Branch of the Dominion Department of Agriculture of an increase in hay exports at advantageous prices this year. Canadian hay has secured for itself a high reputation during the past three years, and reports indicate that among particular customers it is preferred to anything grown in Great Britain. This is another case in which quality assured by government grading means much to the Canadian farmer.

**Empress Theater
Current Attractions**

**REMARKABLE SOUND PRO-
GRAM INCREASES
"WINGS" POWER—MUSIC
AND EFFECTS HEARD IN
MAJOR ENGAGEMENTS
TO PLAY HERE—MON.—
TUES.—**

The remarkable Sound synchronization, which startled the thousands who saw "Wings" at the Criterion theatre, New York City, the Carlton theatre in London and at other great theatres in the large cities of the world, where "Wings" played long runs to delighted audiences, will be heard when the Paramount epic of the "Ace" in the World war shows at the Empress Theatre for 2 days, starting Monday.

The master synchronization which, at the time of its introduction, was the first great Sound innovation, furnishes a splendid accompaniment for the wonders of the picture. Musical accompaniment of heart-stirring beauty forms the background for realistic Sound effects. The spirit of the music is carefully tempered to keep pace with the changing tempo of the picture.

The Sound effects elicited a wealth of praise from newspaper critics wherever the picture has played. The care which Director William A. Wellman exercised in the production made of "Wings" a thrilling story of war in the air. The Sound effects added to these realistic and realistically photographed pictures the convincing air accompaniment.

Falling airplanes really fall in "Wings" in picture and Sound. Machine guns blaze away and those who see them can also hear them. A band marches by and the music swells from the screen. The tramp of a thousand feet is measured in the regulated response from the Sound reproducers.

"Wings" is a great moving picture but, with Sound, it is a marvelous piece of realism that records for all time the war as it was fought in the air in 1917 and 1918.

**LAUGHS GALORE IN "WIDE
OPEN" LATEST HORTON
COMEDY—FRIDAY—
SATURDAY—**

There are by actual count one hundred eighty-nine laughs in "Wide Open," the new Warner Bros. and Vitaphone all-talking comedy, which comes to the Empress Theatre with Edward Everett Horton in the featured male role.

This averages something over two laughs a minute. Some of them are giggles, many of them are chuckling chuckles and fifty or sixty of them are rated as regular guffaws that exercise the diaphragm and break off buttons.

Horton accounts for more than half of the laughs in "Wide Open" on his own account, while Louise Fazenda probably runs next with a comedy role that seems ready-made for her unique kind of clowning. Patsy Ruth Miller, who has to carry a sympathetic lead as well as a part of the comedy burden, gets her full share of amusing. Others in the cast are Edna Murphy, T. Roy Barnes, Frank Beal, Vincent Barnett, Lloyd Ingraham, Bobby Gordon, B.B.B., Louise Beaver, E. J. Ratcliffe and Vera Lewis.

"Wide Open" was directed by Archie Mayo who has previously made a name for himself with feature comedies and who, with Horton and Miss Miller, make a trio that have worked together in numerous pictures on the Warner lot.

"Wide Open" is a Starr-Caesar adaptation of the Edmund Bateman Morris Novel, "The Narrow Street."

**FRIDAY—SATURDAY—
SEPTEMBER 14th and 15th:**
Return showing of the most popular picture ever made—**"WINGS"**

with—**CLARA BOW, BUDDY ROGERS, RICHARD ARLEN, GARY COOPER, EL BRENDA** and a host of others.

**INDIA PEACE MOVE FAILS
—OFFICIAL ANNOUNCE-
MENT THAT NEGOTIA-
TIONS WITH GANDHI
HAVE BROKEN DOWN**

Bombay, Sept. 4.—Peace negotiations in India between the government and the civil disobedience leaders, including Mahatma Gandhi and the Nehrus, officially broke down today.

Announcement Made

Poona, India, Sept. 5.—(A. P.)—Failure of negotiations to bring peace between Mahatma Gandhi and his civil disobedience followers and the government was announced today by Sir Tej Bahadur Sapru and Mr. Jayakar, after an hour's conference with Gandhi in Yeroda jail.

The two moderates issued a statement:

"We regret to announce that the present negotiations have failed. We are publishing the entire correspondence with regard to the affair."

New Outbreak

Bombay, India, Sept. 5.—(A. P.)—The all-India National Congress today inaugurated a "Gandhi Week" by staging an illicit salt demonstration on Cho Patti sands, thousands of people participating. A large police force kept order and later arrested the secretary of the congress committee, Mr. Trivedi, and the editor of the Congress Bulletin, Mr. Vieder.

Correct this sentence: "Yes, I want a pair of slippers," said the flapper, "and please show me something sensible."

It's just the old problem of distribution. There's enough idleness for everybody, but the wrong people have it.

WINE, WOMEN AND WORK

Dr. Eugene Lyman Fiske, director of hygiene at the Life Extension Institute, said as he was sailing for Europe last week:

Man has three outlets: Intoxication, love and work. The chief North American outlet is work. Through love, man may gain leisure. It is a good check of both intoxication and work. It is not a bad idea to mix the three about even.

Dr. Fiske is psychologically sound in saying that wine, women and work constitute the three great emotional outlets. The learned doctor, however, sidesteps a very consequential

point when he neglects to compare the efficacy of the three. Nor does he make himself clear on the matter of intoxication. One may slug himself into a state of semi-coma by over-indulgence in food or drugs just as well as by over-indulgence in alcohol.

But no matter what kind of intoxication is meant, the wearied person who seeks relaxation by that route must remember the old scientific axiom that "action and reaction are equal and opposite."

In short, intoxication, as an emotional outlet, carries with it the penalty of exacting a pound of pain for every pound of pleasure.

Work, too, when undertaken solely as a means of blowing off emotional steam, is likely to become a mere opiate. Productive work is work that is undertaken with a productive end in view. Beyond wearily: the body and nerves to a point where exhaustion brings sleep, automatic work generates no joy.

Dr. Fiske's third elixir is love. It is wonder that the world has not tried more of it as a means of obliterating the sordid and unpleasant realities of life.

Love does not necessarily mean love between the sexes, although a hectic love affair will usually blot out everything else for the time being.

But love, as an outlet for overcharged emotions, means,

or should mean, a sense of kindness and gentle affection for all living beings and all living things.

Wordsworth found just as satisfactory an outlet in his love for a pleasant brook as Byron found in a passionate affair with some woman.

Let us have, says Dr. Fiske, all three of intoxication, love and work. But for the purposes of happiness, let the emphasis rest on the love.

WAGES BY THE YEAR

There is a great deal of sound common sense in the suggestion of William Green, president of the American Federation of Labor, that wage-earners in industry be paid by the year instead of by the day.

To be sure, to put Mr. Green's plan into effect, would call for some drastic, almost revolutionary changes in industrial relations. But the result might well be worth the trouble.

The annual wage system he proposes would go far to eliminate seasonal unemployment, and would probably have an even better effect of compelling manufacturers to spread their work evenly over the entire year, rather than going at top speed for two months and idling at half capacity for the remainder of the year.

It is very probable that in the next few years we shall be hearing a great deal more of this plan.

Let us hope that Mr. Green will keep hammering away at it.

WHY WE LIKE DIRIGIBLES

One of the British newspapermen who made the round trip across the Atlantic on the dirigible R-100 writes that the whole trip was reminiscent of Rudyard Kipling's fanciful tale—written a couple of decades or more ago—about transatlantic airships.

There was the same sense of drama, of romance, the same feeling that the old science and tradition of the sea had been transfigured by being put into an entirely different setting.

It is that fact, probably, that makes most of us rather hope that commercial transatlantic airship service will eventually be established.

We don't care much whether they would be timesavers; they would be very thrilling; and that is enough for us.

Whenever the imaginative fiction of one age can be translated into the reality of the next we are all the gainers. That probably goes far to explain the general public enthusiasm for dirigibles.

WHERE ARE YOUR CHILDREN

Where are they? On the streets amidst the rushing traffic—at the level crossing? They must go somewhere after school lets out at four o'clock, for all that pent-up energy is pounding to be let loose.

The day is coming, no doubt, when there will be legislation about youngsters running at will in this age of motor-driven vehicles. Then the reproach will be removed that the rate of preventable deaths from auto accidents has increased 50 per cent since 1927.

The Bureau of Statistics shows the figures of death to be 1,294 for the past year and despite all the warnings in the world the rate rises yearly. Not a day passes but we see that some dear child has come to an untimely end and the auto driver is exonerated from all blame—the fault being the child's own. That does not ease the aching heart of the parents, nor stem the grief in the little home circles caused by that vacant high-chair.

Mothers must find safe play-places for their offspring, and not leave it to the children themselves, nor to chance. Better turn your flower garden into a playground, than have to send them off to the road itself. One thing all mothers can do, and perhaps this is better done by the fathers—and that is to instill the rules of the road into every last one of them.

SAFETY FIRST should be the daily pledge of the child as he leaves gaily for school. Many good lessons are taught by the health program of the Junior Red Cross in the branch of the school, amongst which there is being stressed more and more the need for preventing sickness by keeping fit and well. Then comes another great lesson—the prevention of fire, and of accident, by taking all reasonable precautions. Your children will benefit by these practical talks during the Red Cross Meetings; therefore all parents are urged to see to it that a Junior Branch is functioning in every little prairie school, no matter how remote. Write to Red Cross, 407 Civic Block Edmonton, for free literature on Safety First.

The "inferior peoples" are the ones that haven't invented machines to slaughter their neighbors in droves.

Maybe the old-time doctor didn't know, but he didn't soak you PVJ for sending you to somebody who did.

A great moralist is one who can explain why it is naughty to dress comfortably except at the seashore.

You may expect war to end when nobody grins hatefully while trumping an opponent's ace.

WEDDING BELLS

McGRAW—GLASS

A wedding of interest to relatives and friends in Lethbridge and Macleod, Alta., and in Greenock, Scotland, took place in Calgary at Grace Presbyterian church on Saturday evening, September 6, when Ethel Helen, youngest daughter of Mr. and Mrs. W. J. Glass of Calgary (formerly of Macleod), was united in marriage to Mr. Alexander McGraw of Calgary (formerly of Greenock, Scotland). The Rev. McNeil officiated at the service.

The bride, who was escorted into the church by her father to the strains of the wedding march, was a picture of girlish loveliness in her dainty wedding gown of ivoryorgette with bridal veil of silk net, softly draped from a Juliet cap of lace and orange blossoms. Her shower bouquet was composed of pale pink roses, lilies of the valley and Scotch heather.

The bride's attendant was her sister, Miss Marion Glass, who wore a sleeveless gown of pale gold silk net with hat to match and carried a bouquet of pink carnations and mauve sweet peas. Mr. John McGraw acted as his brother's best man and the ushers were Messrs. Jack Jeffries and Len Royer. During the signing of the register Miss M. Crozier sang very sweetly.

The groom's gift to the bridesmaid was a gold bracelet, to the best man, a cigarette case, and to the ushers Masonic emblem tie pins.

As the bridal party left the church the bride and groom were escorted to their car by Piper Oliphant playing "Heaven Laddie" on the bagpipes.

A reception was held at St. Mark's Masonic hall at which over 100 guests were present. The guests were received by the parents of the bride couple, Mrs. W. J. Glass, mother of the bride, wearing a gown of brown crepe back satin and beige hat and wearing a corsage of pink and mauve sweet peas. The groom's mother, Mrs. Duncan, wore a gown of black georgette with touches of lace, a black hat and a corsage of pink rosebuds.

The bridal couple received the congratulations of their friends in the ball room, after which dancing was enjoyed.

Later a delicious banquet was served, the bride's table being suitably decorated with silver vases of cream sweet peas and being centered with the wedding cake. The guest tables were decorated with vases of many shaded sweet peas—the flowers being the gift of Mr. and Mrs. Woods of Hillhurst. The bride cut the wedding cake for the skirl of the bagpipes played by Piper Oliphant who paraded the hall. Short speeches of good wishes and congratulations were made to the happy young couple to which the groom responded. Telegrams of congratulation were received from Lethbridge, Alta., Boston, Mass., and Greenock, Scotland.

The motor honeymoon is being spent in California, the bride wearing a travelling costume of brown tweed with hat to match. Upon their return Mr. and Mrs. McGraw will reside at 1209 11th Street, west, Calgary.

Among the out-of-town guests were the bride's uncle, Mr. T. H. Fleetwood and Mrs. Fleetwood of Lethbridge. Mrs. McGraw received part of her education in the Lethbridge schools, later taking her training as a nurse in the Calgary General hospital from where she graduated as silver medalist of her class last year.

POISONOUS MUSHROOMS HAVE DANGER SIGNALS

The popular theory that any mushroom which peels readily is fit to eat is exploded by W. S. Odell, Mycologist of the Dominion Department of Agriculture. "A strange fact is that the poisonous classes peel quite as readily as do the edible varieties," observes Mr. Odell. "There are only two classes of poisonous mushrooms, and a simple, scientific test tells one in a moment just which these are."

The two poisonous classes of mushrooms are the Fly Amanita and the Destroying Angel, or Death Cap. Each of these has three distinguishing marks: White gills underneath the cap; a collar at the top of the stem and a series of rings or a cap at the base. The Fly Amanita, in addition, has a brilliant orange cap as an added danger signal.

The display of mushrooms at the Dominion Experimental Farms Exhibit at Toronto this year proved a highly interesting attraction. Only 46 varieties of edible mushrooms were displayed, however, owing to the drought which has prevailed over a large section of the country. Last year the display featured 92 edible varieties. Mr. Odell states that, given a few showers in the near future, a bountiful supply of mushrooms would be available for the picking.

Alas! The only friend who this friends should share everything is the kind who never has anything you want.

Suffering is more fun if you explain what you're doing so nobody will miss it.

EDUCATION OF SOLDIERS' CHILDREN ACT

Art Wakelyn, the Provincial Secretary of the Canadian Legion, B. E. S. L., in Alberta, has asked this newspaper to be kind enough to publish the terms of the Alberta Provincial Act passed this year under which applications might be made for assistance to the children of ex-soldiers who require aid in obtaining further training in life as follows:

1—The educational facilities which the Board may authorize shall be:

(a) Academic courses up to obtaining the standing required for entrance into the University of Alberta, or for a second class teacher's diploma.

(b) Technical, agricultural, and commercial courses in those Institutes which are covered by the Inspectorate of the Departments of Education and Agriculture.

(c) Nursing, Domestic Science and kindred subjects covered by the Inspectorate of the Department of Health.

2—The Board is only empowered to grant assistance to children who have attained Grade 8 (Eight) standing or higher.

Further information can be obtained from any Branch of the Canadian Legion, B. E. S. L., in Alberta, or direct from the Registrar, The Education of Soldiers' Children Act, P. O. Box 667, Edmonton, Alberta.

The public would hesitate to fly in Europe, too, if every accident was reported in the headlines.

Turkey is killing insurgents. An insurgent is a great liberator who fails to put it over.

GRANUM LOCAL NEWS

Mr. and Mrs. P. DeMan were Lethbridge visitors Tuesday.

Mr. and Mrs. Dugald Pyke, of Red Deer, are visiting their daughter, Mrs. C. F. Carswell.

Mrs. R. Little, of Calgary, Mrs. H. W. McNeil, of Brant, and their mother, Mrs. T. Blair, are guests at the home of Mrs. W. Blair.

Mrs. T. W. Blair and her daughters, Mrs. Robert Lytle and Mrs. McNeill are visiting for a day or two with Mr. and Mrs. W. A. Blair and family.

Arnold Fraser, the popular boniface of the Alberta Hotel has sold out to R. Hirtz, of Calgary. Mr. and Mrs. Fraser have made many friends in Granum who will deeply regret their departure.

On account of the extreme busyness of many of the members the September meeting of the W. M. S. of the United Church had to be postponed and announcement of the time will be made on Sunday next.

The Road Builder in the capable hands of its handlers has made a fine new highway from Hardtke's Corner to Mr. Jack Baird's gate as well as south toward Mud Lake. This new road should be a great addition to the means of winter transportation, though which Rink will become the centre of attraction is still doubtful Daley Creek, or Granum.

At Starland Theater Friday and Saturday this week Hoot Gibson in "Courtin' Wild Cats." All talking. One of Hoot's best. Also all talking 2-reel comedy "Fellow Students." Usual admission. Monday only (Sept. 15th) "No, No, Nanette." Vitaphone production—All talking, singing, dancing—It's big—Don't miss it. Two shows—7 and 9 o'clock. Usual admission.

At the United Church next Sunday, the 14th, the Minister will continue the series of studies on "Jesus, and the Modern Mind." He spoke last Sunday on "The Christian Picture of Man." Next Sunday he will deal with "The Canadian Picture of Man." It may not matter much what some of us think of man, but we may be sure that what Jesus thinks, is of utmost importance. By Him is the world to be judged. Can you make time for this hour of worship and study?

The High River Presbytery of the United Church held its September meeting in the Claresholm Church on Tuesday last, September 9th at 10 o'clock. The election of a Chairman for the current year resulted in the appointment of Rev. W. J. Kidd of Okotoks. Rev. R. W. Dalgliesh of Claresholm was re-elected Secretary. Rev. Dr. Powell, Superintendent of Missions led in an inspiring devotional study, and the regular business of Presbytery was proceeded with. A communication was read from the Prohibition Association asking the co-operation of the United Church leaders in the circulation of a petition asking for a referendum on the matter of eliminating the beer parlors and restricting all alcoholic liquors to government sale. It was pointed out that the co-operation of the various church bodies was being sought in this matter, and the Presbytery pledged its support, feeling that any system could not be worse than is the present beer hall system. Good reports were heard from the Missions of Turner Valley where the debt on the new church and manse has been reduced to \$300. 200 dollars having been contributed by the New Outlook Special on its recent visit to the Oilfields. Also three students of Pine Hill Divinity

School, Messrs. Archibald, McLean, and Bacon gave excellent reports of their summer work on the Missions of the Foot-hills. An Interim Moderator was appointed for the Champion Charge which hopes soon to call a successor to Rev. S. R. Hunt, who went into the Peace River work. The next meeting of Presbytery will take place at Nanton in mid-November.

THIEVES ENTER GRANUM STORE, MAKE MEAL AND STEAL \$1,500 IN GOODS

For the second time within a week Granum merchants have suffered from looting. Monday night or early Tuesday morning a raid was made on the store of W. B. Rogers, where the marauders gained entrance by smashing plate glass in the front door and releasing the Yale latch. Inside the thieves took time to open canned goods and partake of a hearty meal, and then removed considerable quantities of dry goods and groceries.

A hurried survey of the premises revealed the fact that approximately \$1,500 worth of merchandise was taken.

Less than a week ago, the Granum Groceries, owned by Sam Aisanstat, was entered and about \$400 worth of goods taken.

Arline Reinecke, L. A. B., Claresholm, Alberta, teacher of piano-forte and theory, wishes to announce the opening of a class in Granum. For information phone 32, Granum.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION—THE SKIN

Beauty may be only skin-deep, but a healthy skin is the reflection of the health of the whole body. The skin mirrors the manner of living of the individual.

A healthy skin generally means that a healthy mode of life is followed, and that the body is in a state of health. A flabby skin usually indicates lack of exercise, and suggests that the muscles of the body are in poor shape.

Palleness, blotches, pimples and other such conditions very frequently mean that the habits of life are faulty. It may be that the diet is not balanced or that the need for rest is overlooked or that sufficient fresh air is not being secured.

Unfortunately, all skin abnormalities are due to an unhygienic life and cannot be corrected by attention to the habits of living. The majority, however, are due to such causes, and they can be corrected by giving attention to diet, rest, fresh air and the other essential health needs of the body.

The skin is nature's barrier to infection. The broken skin invites the entrance of germs which cause infection. It is therefore desirable to care for the skin, to protect it and to keep it intact. Everyone should have his own wash-cloth and towel. Common towels are responsible for the spread of

skin infections. The skin is also the means by which the constant temperature of the body is maintained. Through perspiration, the skin increases evaporation and the dissipation of heat. It is desirable to keep the skin clean, in order to enable it to do its best work.

The number of baths indicated for any individual depends upon his mode of life and the season of the year. The person who perspires freely as a result of his work, or on account of the heat, should take a warm bath daily. Two warm baths a week are advisable for everyone.

In addition to keeping the skin clean, baths have other good effects. A cool bath each morning is, to many people, stimulating and desirable. There are others who do not react well to a cool or cold bath, and who are chilled by it. Such individuals should avoid cool baths as they are harmful for them.

As we have said, in most cases a healthy skin is secured by a healthy mode of living and by cleanliness. Skin conditions which do not respond to such care require medical treatment.

A healthy skin mirrors good health and is a personal asset that cannot be secured except through proper living. Questions concerning Health addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

WINTER SHELTER FOR FALL PIGS

The prospect of having to carry fall pigs through a long and severe winter prevents many farmers from breeding their sows for fall litters. While it must be admitted that in the prairie provinces there is the possibility of long and severe winters which may cause the fall pigs to make slow and comparatively expensive gains; nevertheless the fact remains that housing conditions on many farms are to a large extent responsible for the poor gains. The fall pigs must have dry, well bedded quarters which are free from draughts and well ventilated if they are to make the maximum use of feed consumed. It requires a little more feed to produce 100 pounds of gain on fall pigs than on spring pigs but prices for the fall pigs average sufficiently higher to render them on the average, a little more profitable than spring pigs.

Expensive and elaborate pigeries for housing fall pigs are unnecessary. Colony houses have proven very satisfactory shelters for fall pigs at the Dominion Experimental Station, Lacombe, Alberta. The 6 by 8 feet and 4 feet to the eaves gable type portable colony house has been found to be considerably better for housing fall pigs than the larger and more expensive permanent pigery. This statement assumes, of course, that the pigs in the colony house are kept dry and well bedded and that the feed trough, or self feeder is sheltered to some extent from severe winds.

The plan, followed at the Lacombe Station is to place the cabins side by side and crate and bank them to the eaves with straw, leaving the fronts open and facing the south. A sheet of sucking or similar material hung over the door breaks the wind and provides suitable protection for the doorway. The feeding lot which adjoins each cabin is large enough to provide space for limited exercise and the feed trough or self feeder. The 6 by 8 feet colony house will accommodate from eight to ten fall pigs comfortably, if more than eight or ten pigs are to be gathered they often pile up during cold weather and those underneath become too warm and damp with steam; then when coming out to feed they suffer from the cold.

At the Lacombe Station the colony house has also been a successful method of housing the early spring litter. The sow farrows in the main pigery, and as soon as the youngsters are from ten days to two weeks old, if the weather is not too severe, the sow and litter are moved outside to one of the cabins above mentioned where they may take exercise outside. A circular giving detailed plans and specifications for the construction of a cheap portable colony house can be secured free of charge from your nearest Experimental Station or from the Publications Branch, Department of Agriculture, Ottawa, Ont.

LEARN TO SWIM

A 17-year-old boy at St. Charles, Missouri, was ordered by his father not to go into the water because he could not swim, says the news. He disobeyed and was drowned. A journalistic moralist could point this tale with wise observations on the penalty of disobedience. A better moral would be the folly of not knowing how to swim.

Boys have always gone into the water in the summer time and always will. They should learn early how to take care of themselves. And that is also true of girls. People who can swim a hundred feet think there is some-

thing uncanny about the ability to swim a mile. Any beginner can swim a mile at the end of one month of daily practice, provided he goes progressively farther each day.

And any normal person can learn to swim, whether his age is seven or seventy.

One great drawback to learning to swim is the fear of water, common to so many people.

One device to get rid of this fear is to stand in water a little over waist deep, take a full breath and try to put a hand on the bottom. It cannot be done. But the person trying will find himself floating. And with that floating sensation, all sense of fear will leave.

There are dozens of methods of conquering water fear.

Everybody should conquer it and learn to swim.

CURING PORK

Temperature is an important factor in the home curing of pork. observe experts of the Dominion Department of Agriculture. The meat ceases to take salt when the temperature falls below 36 Fahrenheit. Therefore, dry curing to be successful must be done in a room in which the temperature does not long remain below this point. In brine curing care must be taken to avoid fermentation which occurs when the temperature rises above 45 F., and also to see that the temperature of the room does not drop below 35 F. It is also well to freshen brine frequently as this tends to prevent fermentation. Detailed instructions in the home curing of pork and other meats is available free of charge on application to the Department at Ottawa.

You see, vegetables are higher in New York because the drought in the West ruined a cousin of a New Jersey truck farmer.

THE BACON CYCLE

"The production of hogs in Canada at the present time is at the low point in the production cycle," state the Live Stock Branch of the Dominion Department of Agriculture. Current supplies, and supplies in prospect are not more than sufficient to meet a very active home demand. It is noted, however, that there has been very little falling off in hog production, but rather that supplies have failed to keep pace with a growing domestic consumption. There are signs at the present time that the coming year may show a substantial increase in bacon production while at the same time the re-adjustment of prices may result in the resumption of bacon exports.

Still, with the price of wheat dropping and bread selling as usual, it is evident that somebody is making money.

One of the great mysteries of life is how a little one-lunged outboard motor can make more noise than a liner.

Speaking of plastic surgery, isn't there some way to transfer bone from a statesman's head to his back?

There may be something in a name. Both Earl Carroll and King Carol seem to like their ladies naughty.

Maybe you think the world is growing worse, but how long has it been since you heard any real oratory?

You are no longer young if you still desire to read a book after somebody tells you it is instructive.

Patrick: Let's have a party. I'll get Mary.
Henry: Suits me — I'll get merrier.

Have you a harvester-thresher? They are becoming mighty popular around here, which means there will be a lot of grain hauled out of rough stubble fields and direct to elevators during next harvest. That's where the International "Six-Speed Special" Truck shines. Six speeds forward and two reverse for power a-plenty in the hard going and all the speed you can use on the road.

If we do not plant knowledge when we are young, it will give us no shade when we are old.

When may we give you a real demonstration of the International "Six-Speed Special?"

The man who brags loudest when he wins usually squawks loudest when he loses.

The man who has rural hauling to do now can buy his own special kind of a truck—the new International "Six-Speed Special." The way International "Six-Speed Special" Trucks have been going into rural service the last few months—trainloads and trainloads of them—is the best proof that International Harvester is offering rural haulers just what they've always wanted. Six speeds forward and two reverse, four-wheel brakes, thrifty operation, speed on the open road, and great pulling power for hard going, are some of the "Six-Speed Special" features.

Conductor: Ticket, please.
Passenger: Aw, I can ride anywhere on my face.
Conductor: It does look a little mashed.

Ask us about your farm problems. Perhaps we can help—and we want no pay but your good will.

"Is your wife suspicious?"
"Is she? My wife is the sort who puts 2 and 2 together and gets 22."

captured, tried, sentenced and on their way to the penitentiary.

One of the meanest robberies reported to the authorities this week is that of thief or thieves tearing up the garden of Harry Munnell on the river bottom and stealing cabbages, corn and other garden produce. It is not so much taking a wagon load of produce as the damage that was done while the midnight purloining was being carried out. Mr. Munnell has been to a great deal of expense and trouble raising this stuff for the market, and naturally for the revenue therefrom, and then to be robbed by some sneak thieves of the lowest type seems pretty hard luck.

On Monday evening the Young Peoples Society of the St. Andrews Church met in Mr. Bremner's home at the R.C.M.P. Barracks in honor of one of the members Mr. Alex Laing, who has been transferred to the Bank of Commerce Branch at Nanton. Mr. Laing has been most active in the society during his stay in Macleod, having been treasurer for the past two years. Mr. Donald Stewart of the Bank of Commerce staff on behalf of the members of the society, presented Mr. Laing with a pearl evening set, expressing their regret at his departure and wishing him much success in the future. Mr. Laing in a few words thanked those present for their thoughtful gift, saying he would always remember the happy times they had spent together. Mr. Laing left on Tuesday morning to take up his duties in Nanton.

MACLEOD W. C. T. U. HAS A YEAR OF ACTIVITY

The annual meeting of the Macleod Women's Christian Temperance Union was held on Thursday afternoon of last week in St. Andrew's Church. There was a good attendance of members present.

The reports presented showed much activity and good work done during the year, also the financial obligations all fulfilled. The election of officers for the coming year resulted as follows: President, Mrs. E. F. Brown (re-elected); first vice-president, Mrs. J. F. Knight; second vice-president, Mrs. Griffin; secretary, Mrs. R. J. E. Gardiner; treasurer, Mrs. R. Gillespie; Superintendents of Departments: Supt. Scientific Temperance, Mrs. T. S. McLean; Supt. of L.W.R. Mrs. C. Brewster; Supt. Medal Contests, Mrs. O. F. Fanset; Supt. Parlor Meetings, Mrs. M. Hill; Supt. Fairs and Exhibits, Mrs. R. McCrea; Supt. Peace and Arbitration, Mrs. Griffin; Supt. Sunday School Work, Mrs. E. F. Brown.

Delegates to the Provincial Annual Convention to be held at Red Deer, Oct. 1st, 2nd and 3rd, were appointed: Mrs. E. F. Brown, Mrs. J. F. Knight, Mrs. R. Gillespie and Mrs. J. Arthur.

Morality by statute and sermons by radio. Now all we need is religion in a nice little capsule.

A hick town is a place where the gossips get excited if a widower shaves on Tuesday.

Clap Hands!

Energy—just brimming over with energy! Only proper feeding can do this for babies. And Nestlé's Evaporated Milk is the proper food.

And here's the Reason! Nestlé's Evaporated Milk is just the best of fresh cow's milk with part of the water removed—then sealed and sterilized in air-tight containers. Add water again and you have absolutely pure, safe milk—but more readily digestible than ordinary milk because the large fat globules of the milk have been broken up into small ones of the same size as in Mother's milk. Also, the curds which form in the stomach when Nestlé's Evaporated Milk is used are soft and flaky and therefore easily digestible.

Use Nestlé's Evaporated Milk for Your Baby. Use it in coffee—in cocoa—in tea. Use it in all cooking and as a beverage by diluting with one to two parts water.

NESTLÉ'S EVAPORATED (Unsweetened) MILK
